

Meet Lulu

**She's cute as a button
and sweet as can be**

**She's fun, and exciting,
an adorable puppy**

**Without her littermates
she'll have to make do**

**She's now out on her own
and bid them adieu**

**You're
squishing
me!**

**She'll learn how to behave
in the weeks to come**

**Many different commands
that she will succumb**

**She will sleep in a crate
and feel very secure**

**And will continue to sleep there
until she's mature**

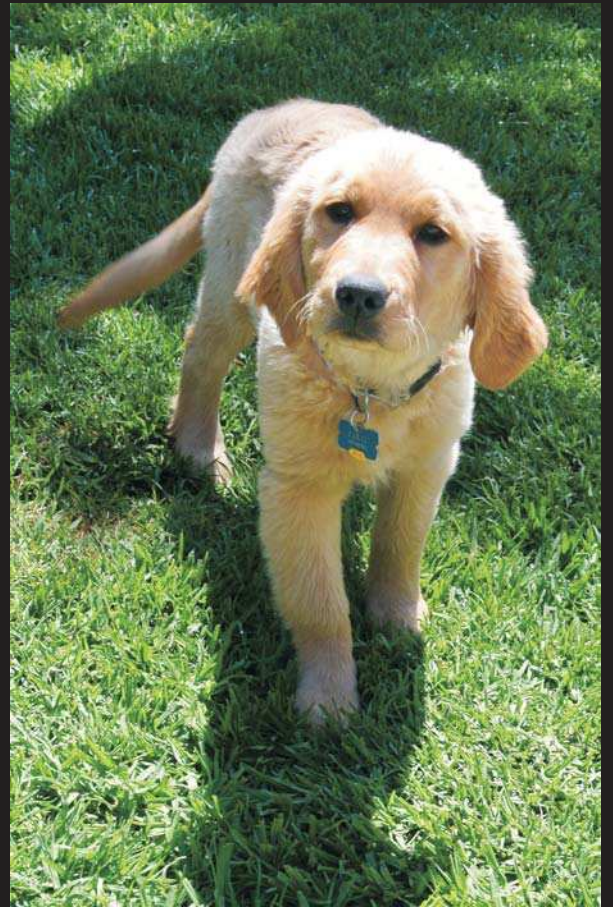

**She'll get bathed and washed till she's squeaky clean
Lots of water to play with, she loves this routine**

**She'll grow up and learn
all the tricks of her trade**

**And into a 'Guide Dog'
she's soon to be made**

Look who fell in the jacuzzi.....

**Geez, the things
we go through
to be a
Guide Dog!**
