

Hi Family!

It's me again from Guide Dog College. Hope you are doing well. I have some exciting news! I passed my preliminary test! It's the first of many more tests, but I'm excited. I got to guide my instructor around while she wore a blindfold. I crossed streets safely, stopped for curbs, and made left and right turns. I had fun showing off my new skills! Soon we will be moving into new areas like Burbank, Pasadena, and Northridge. I also heard we will learn how to travel using moving stairs. I think my instructor called them escalators. I'm looking forward to new adventures!

I still get to have fun during the times I'm not out training. I get to play with my friends in the kennels. I also get daily enrichment activities whether it's playtime, nice walk around the campus or even a nice massage from the kennel staff with a little aroma therapy and smooth jazz music playing in the background. It's like a spa day! Miss you but have more to learn.

Wags & kisses!
