

Hi Sepulveda Building Materials Sponsor!!! Here's Ezri - growing up nicely and experiencing life exploring the world around her and learning so much so fast. Ezri is a very sweet sweet girl. She is eager to please which makes her very suited to becoming a guide one day. She has passed her first evaluation with flying colors. As a Puppy in Training she is exposed to many new environments so that when she is guiding nothing will take her by surprise. She handles her walks very well, including noisy construction sites, busy city streets, as well as the stillness of a prayer group. From the chaos of children's summer camp activities to the stillness of a prayer meeting, Ezri fits right in and is loved by everyone.

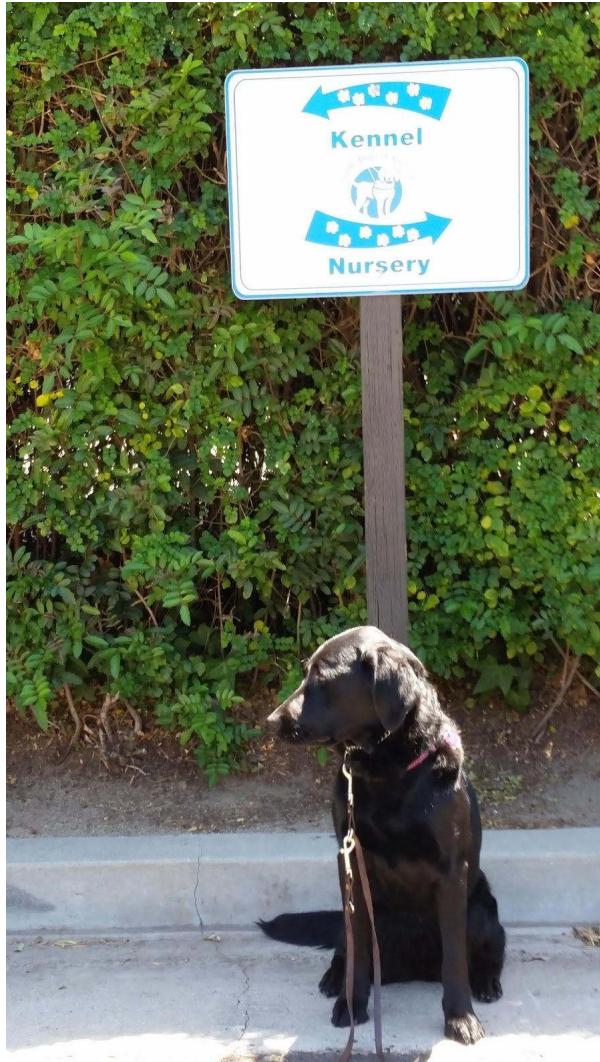

Relaxing at home in the sun with her foster brother - they love each other. Although Ezri works hard learning new skills and practicing obedience, she gets plenty of down time to play and relax.

Ezri loves the outdoors. We take long walks. Guide Dogs must relieve on command and not hesitate whether on rocks, soil, concrete, blacktop or sand. Ezri is eager to please.

Ezri always enjoys her kennel stays at Guide Dogs of America - They make it extra special with lots of attention from the wonderful staff and volunteers, lots of play times with her friends, and special treats.

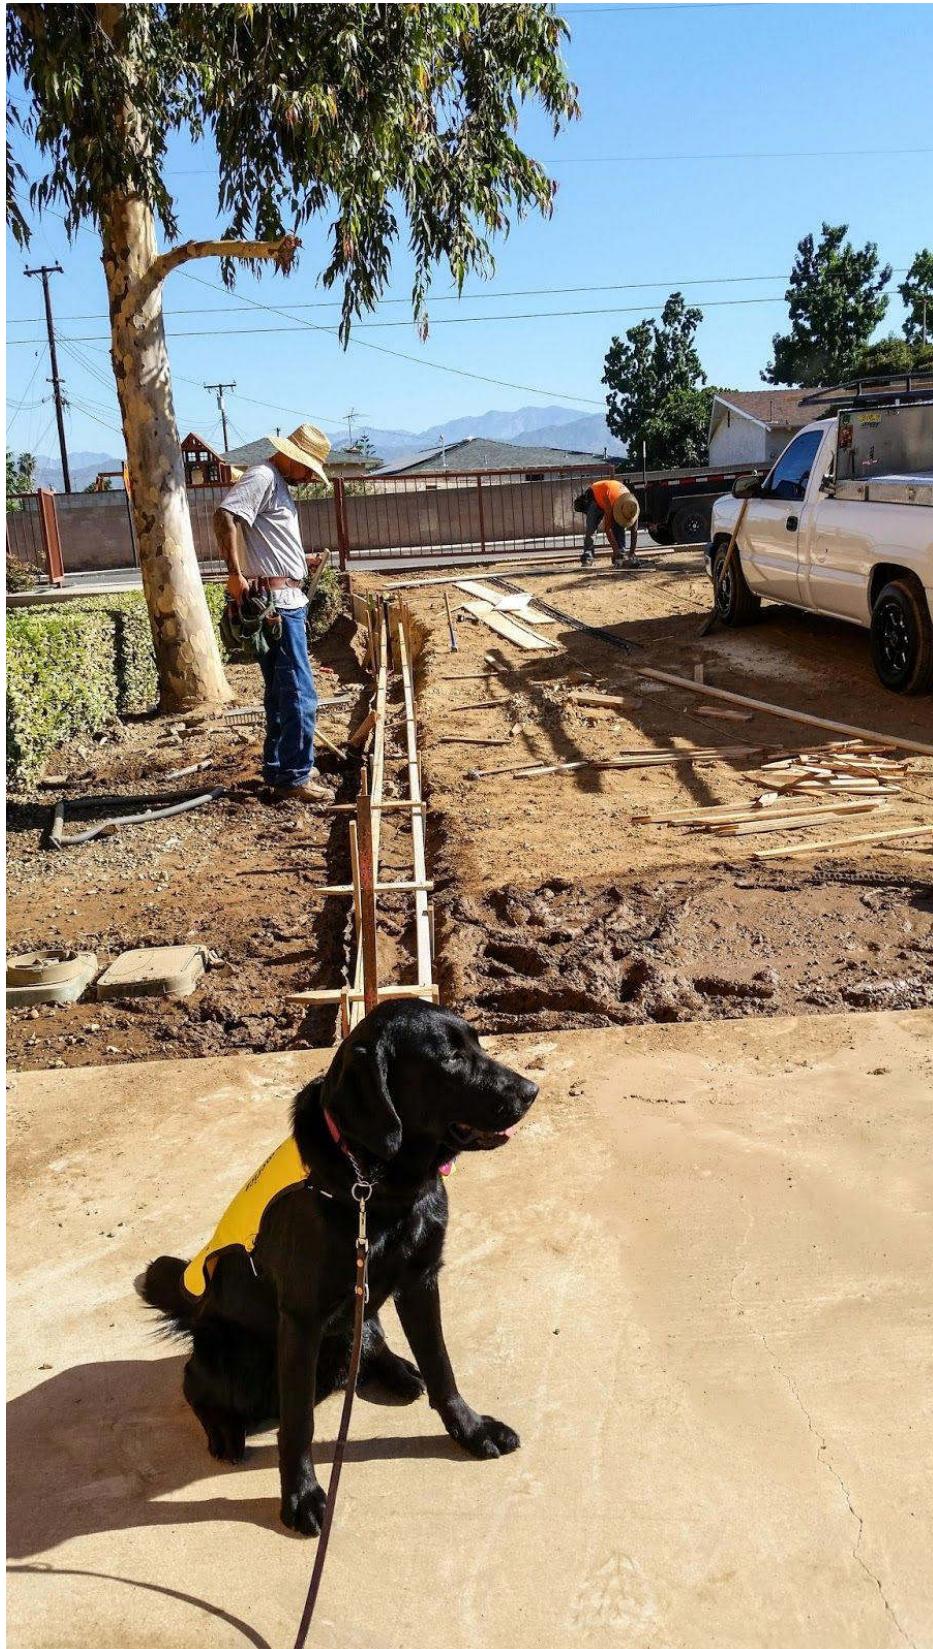

Ezri sitting tall and proud. She loves practicing her commands.

Sending off a few special friends on a missionary trip. She senses the anticipation.

And joins in our prayer circle.

A visit to a local construction site to practice obedience commands with distractions.  
Nothing phases Ezri.  
Well done!

Well, except maybe kitchen duty. The highlight of this month was volunteering to do snacks at summer camp. She's not enthused.

Her attitude changed as she got to meet some of her favorite people dressed up as Star Wars characters.

Thank you so much Sepulveda Building Materials for your generous support of Guide Dogs of America. With your donations we are able to raise these very special puppies until they go into formal training where they learn to do a specialized job that requires technical training. The impact on the lives they touch, not only the visually impaired, but everyone who helps in socializing these puppies are so blessed to be able to be involved. On behalf of my family, my friends and my church - we all thank you for this opportunity. Guide Dogs of America does a great job in training us to be the best puppy raisers we can be.

Until next time...
