

Hi family!! I just wanted to update you on things we are doing at GDA. We have been learning a lot since I wrote your last postcard. So far, we have learned how to stay safe around traffic, we also have started to learn indoor work and escalators. Wow escalators made me a little nervous but my instructor is so patient with me and allowed me to settle and become more comfortable with them. We have also started to work in a more busy area of Burbank it is nice to get around different areas.

We have been working hard these last few weeks but when my friends and I are not working, we get to run around our community area. My favorite thing to do is play tug of war with anyone that will play with me. I also really like getting other dogs to chase after me when I have my favorite Gough Nut toy.

Anyways, hope you are doing well, I know I am!
