

Mamba - April 2019

By Mamba

Thank you, Sepulveda Building Materials for sponsoring me!

I will try my best to make you proud!

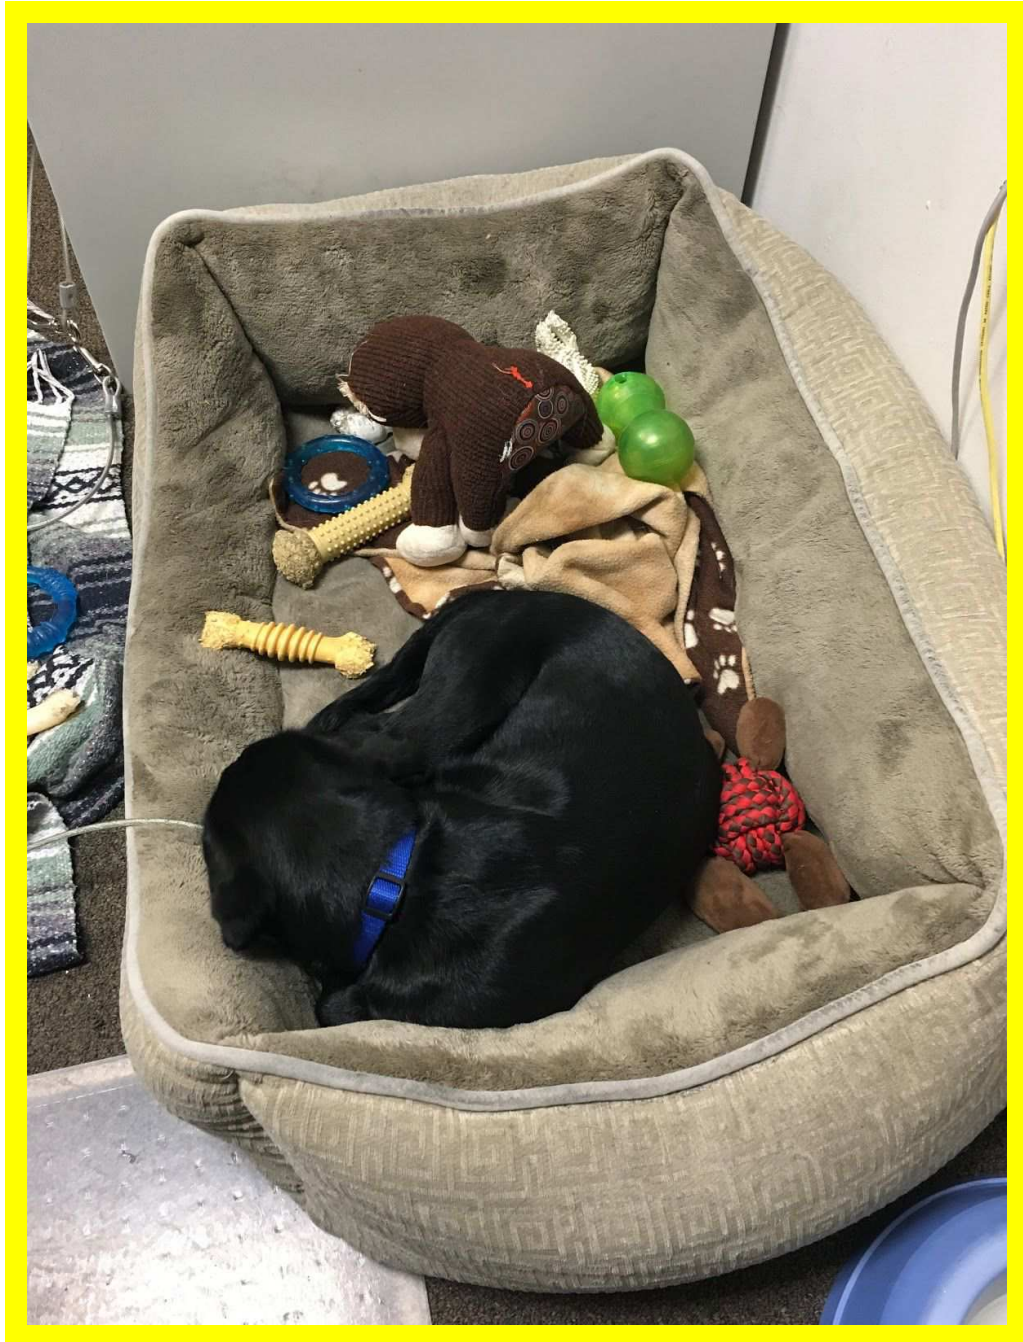

The BIG news is that I got my puppy jacket!!! I can't wait to go out to new places with my humans and practice obedience outside!

My first outing was to a high school basketball banquet. There was a lot of people to say hello to and a lot of noise, but it didn't bother me and I took a long nap under the table with my littlest human.

I got to spend a few days with a veteran GDA family while my humans went out of town for a few days. I went to work with Joanne and quickly learned to settle by her desk. Of course, I had to move all the toys from the toy box to the bed first!

This is my new friend Hurley. He is a career change friend from GDA. We got to play and I learned some manners on how to play with other dogs. Hurley was very nice to me.

When I can't be outside, I like to find little spots of sun to lay in. I love the way it feels and this is my favorite place to nap!

But of course, actually being outside, is THE BEST!!!!

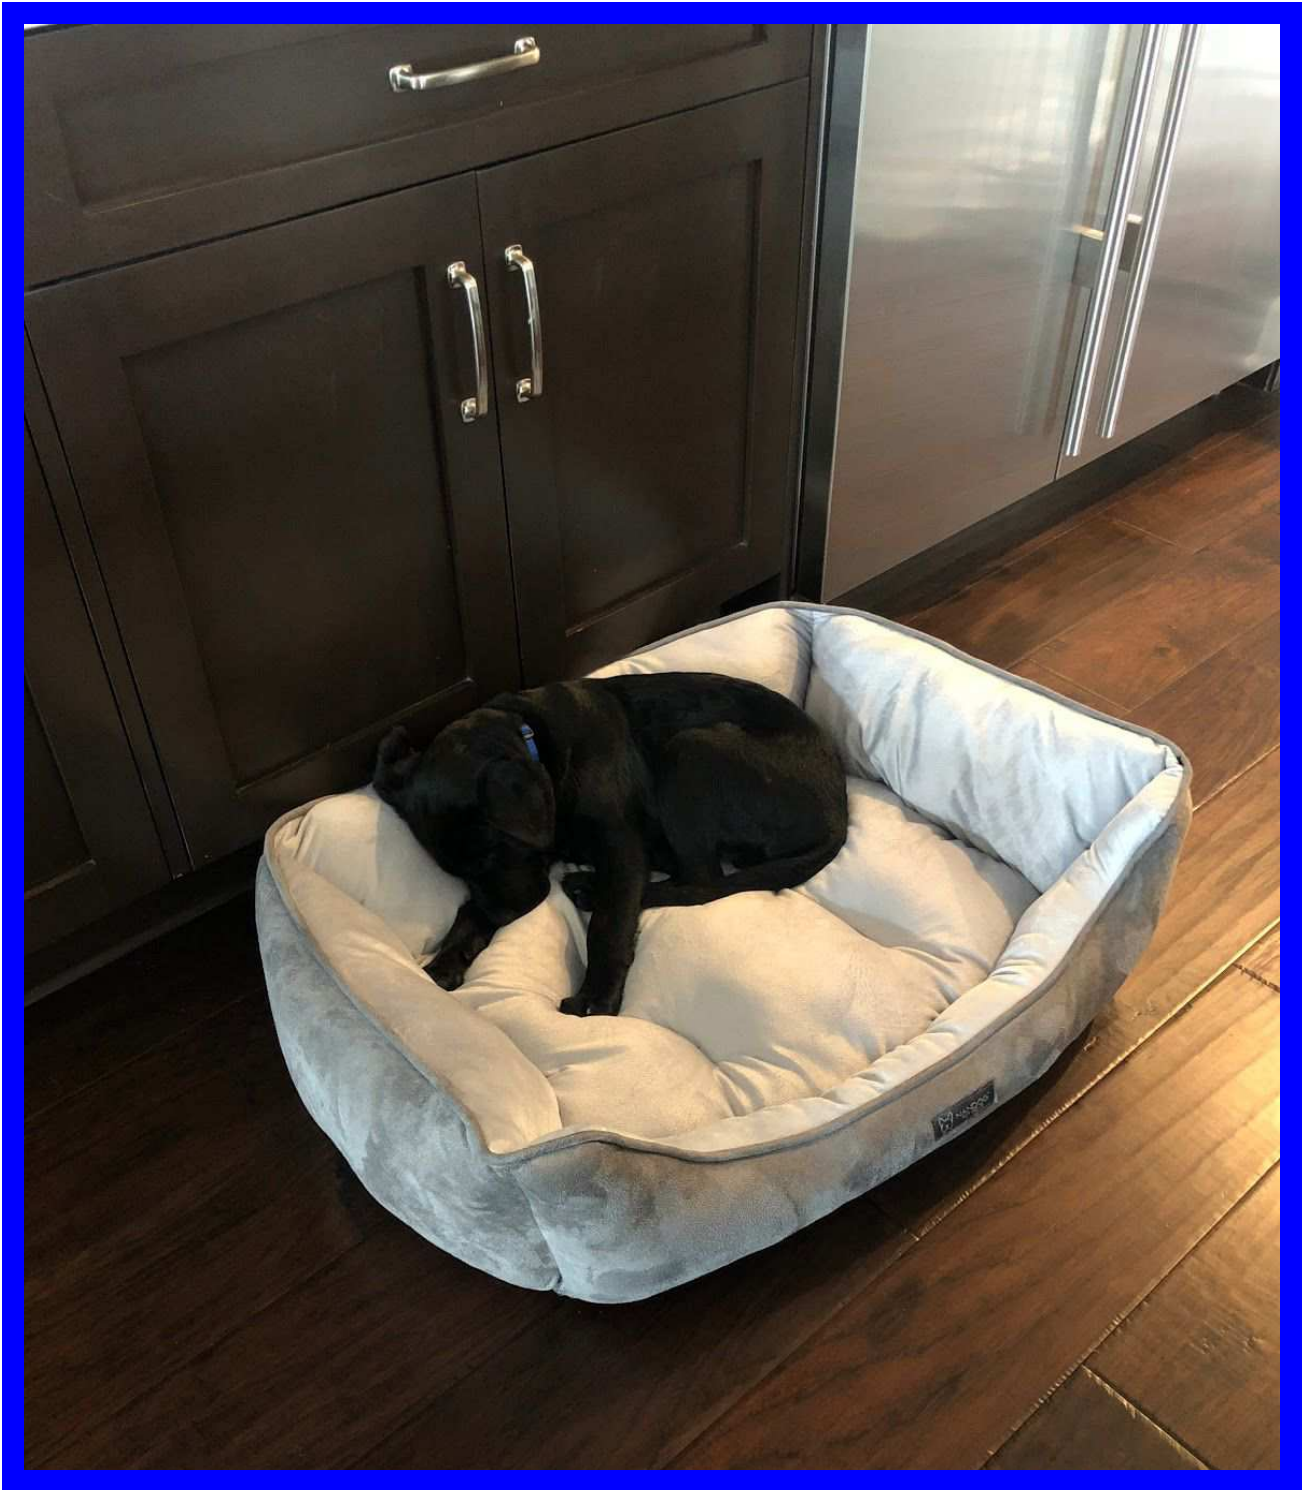

Happy Valentine's Day!!!

A new big boy bed appeared one day! I'm so lucky!!!

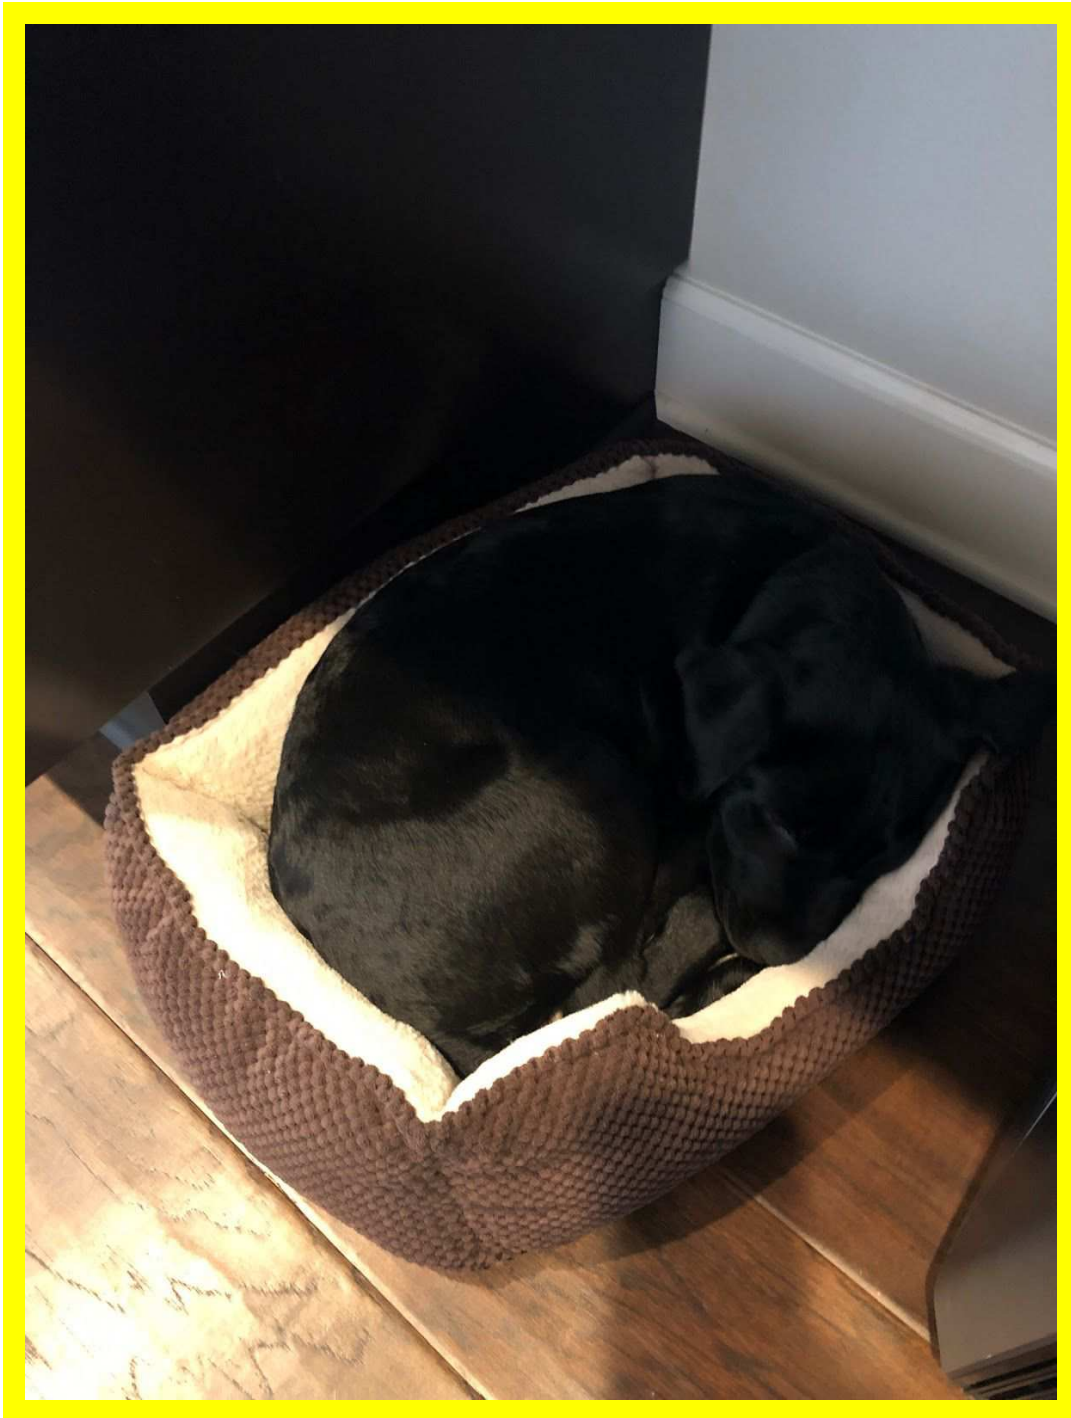

But to tell you the truth, I still like my baby bed the best!

See.... it still fits!

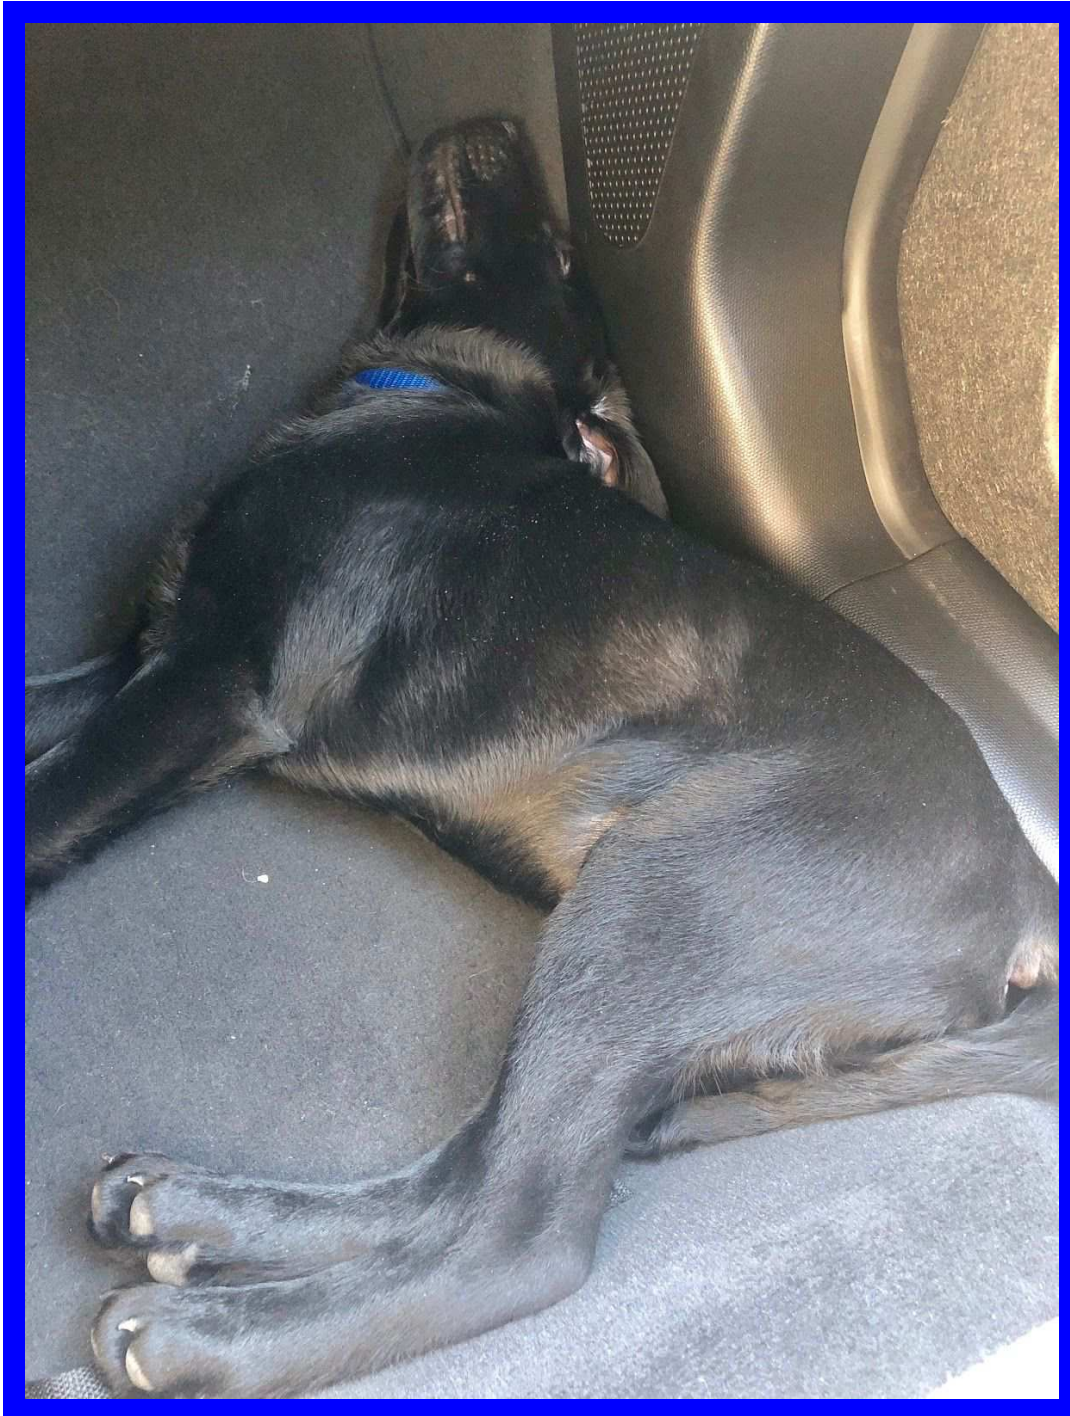

I practice my commands all the time, and sometimes even stop in the middle of playing to practice a little.

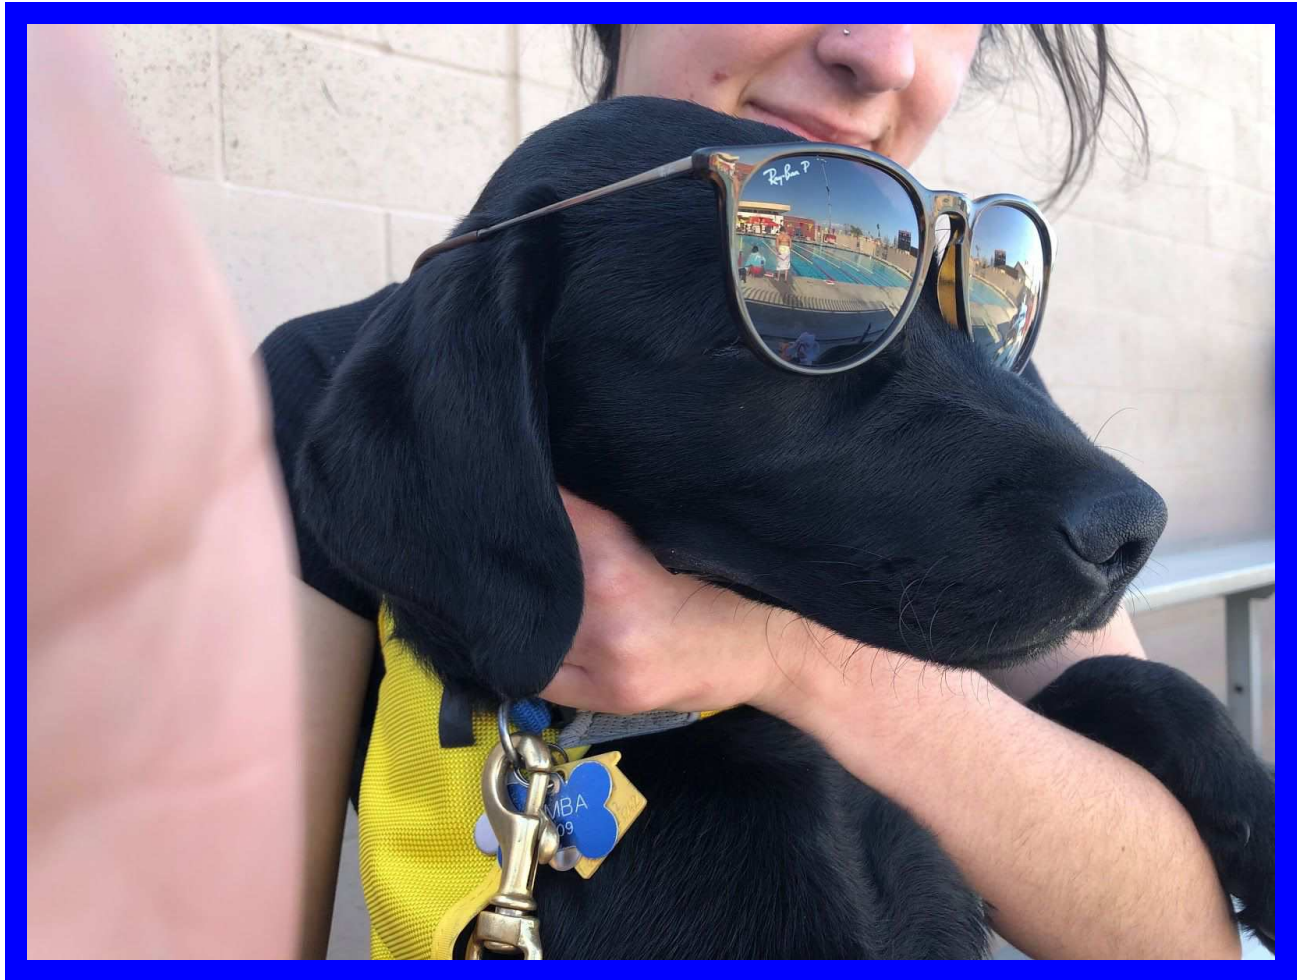

My first day of Puppy Kindergarten. I learn so much there! Only a few more weeks of kindergarten and then I will move on to the advanced class.

A few commands I have learned are sit, down, stand, stay, close. We practice with my brother Mac and 2 other friends named Livia and Jersey. It takes all my self-control not to want to play with them, but I know that this is not playtime, it's my time to learn. I am always so tired after class, I usually pass out in the car!

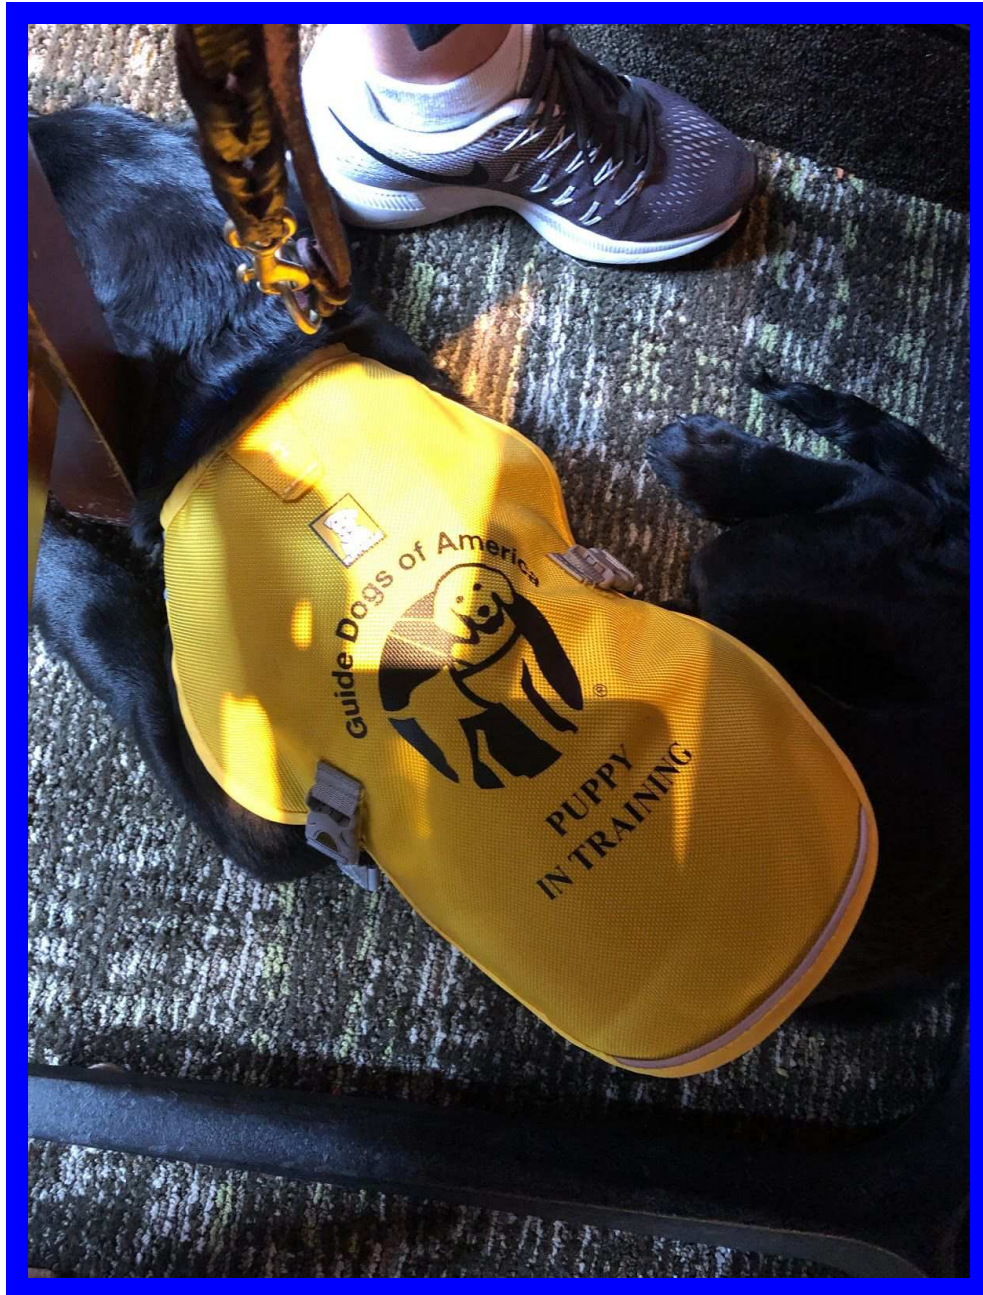

I like to watch tv sometimes at night to unwind!

I went to a swim meet (look in my sunglasses) with my puppy sitters. I was really good on the pool deck!

Lunch at Olive Garden was yummy (for my humans!) I found myself a nice spot under the table and took a nap.

It makes my humans happy when people tell them that they didn't even know I was there the whole time!

Now that I have all my shots, I am really enjoying walking in the neighborhood. I have seen a few other dogs from a far and in the next few weeks, will practice walking by them on the same side of the street without getting distracted by them.

Every morning I walk my little human to school and pick him up after.

I am still practicing greetings with other humans - big and little. I am practicing saying hi when my humans tell me to "go say hi." Sometimes I don't want to say hi and that is ok too!

I'm 27.5 pounds now! More than double my weight when I went home with my humans!
I got my big boy shots and have switched to big boy food now, so next time you see me,
I will be even bigger! :)

Thank you again Sepulveda Building Materials!
