MAMBA

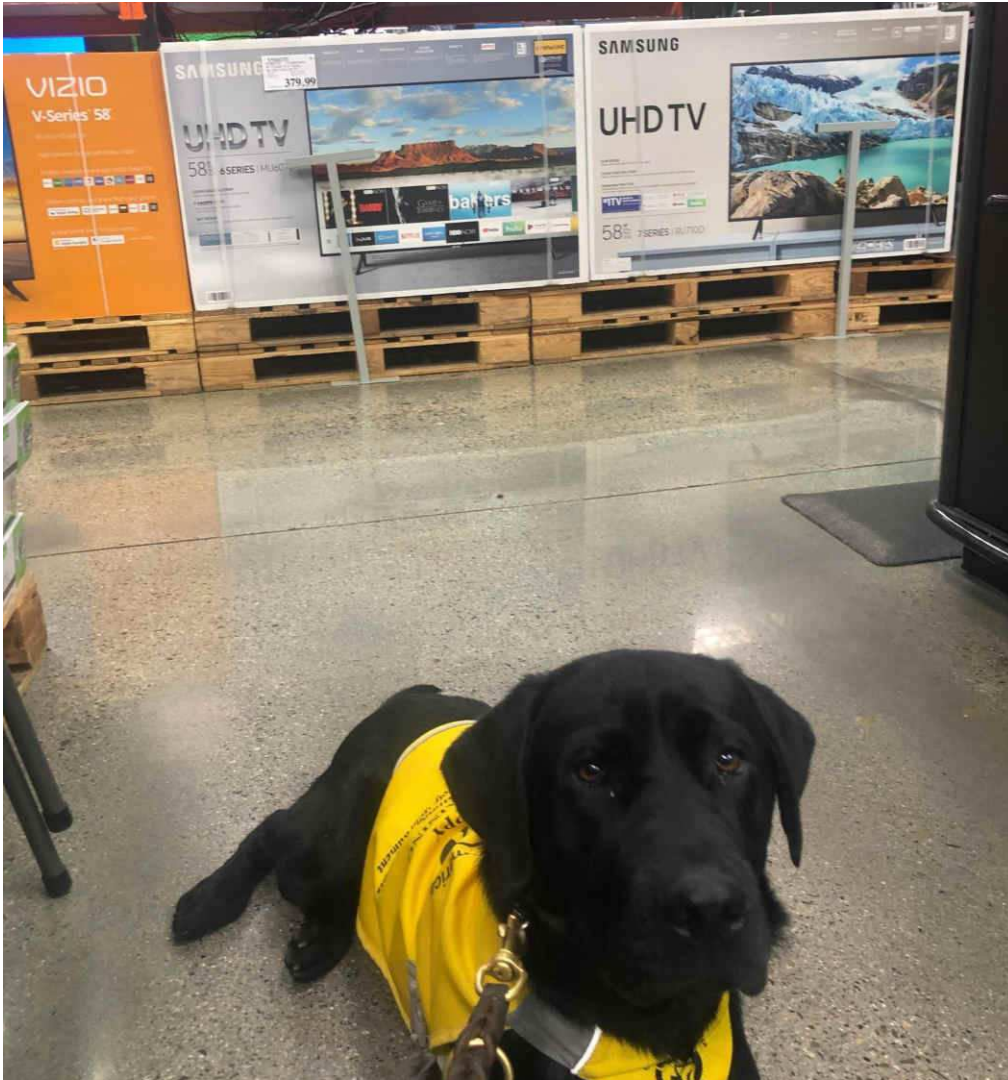

March 2020

Mamba waited patiently at DMV while his smaller human took her driver's test. She passed! He also was very well behaved waiting in line inside DMV.

start guide dog college. Mamba is such a smart and sweet boy and he is ready to learn all that it takes to be an amazing guide dog from the trainers at Guide Dogs of America. Mamba is the second dog his puppy raiser family has raised for GDA and they did a fantastic job at giving him a great foundation of socialization, obedience, and house manners that will help him excel during his formal training and becoming a guide for his future blind or visually impaired partner. Mamba has all the qualities that will make a fantastic guide dog and we are so proud of him and how well he's done while being a puppy-in-training. We are so thankful for his puppy raisers and the job they did getting Mamba ready for his formal training. Here is what his puppy raisers had to say about their time training Mamba:

"First of all, thank you to Sepulveda Building Materials for sponsoring Mamba! It's only been 4 days since he returned to GDA and we miss his constant presence already. As usual, he was super excited to be back at school so we don't worry at all whether or not he is having fun there - he loves being at GDA! Our favorite thing about raising Mamba is knowing that we not only have this adorable, smart, loving puppy in our home, but that we are helping him get ready to fulfill a greater purpose and to help change someone's life. Mamba was always ready to go - whether it was to run errands or a long walk. He was also always willing to just take a long nap while we were working. Every day felt like a great adventure with Mamba - he loved going out - to new places and to familiar places. Do great things, Mamba! We love you!"

Thank you so much to the Yang family for their hard work with Mamba. Let's give them some love to help ease their hearts during this time.

And to Mamba: everyone at OCGDA believes in you and wishes you the
